AUTO-EVALUATION GUIDE

Co-funded by the
Erasmus+ Programme
of the European Union

Instructions:

This Auto-Evaluation Guide is intended to be applied by the partnership with the aim to support the project monitoring and give feedback for the project management and implementation.

All partners that integrate the partnership should participate and give inputs for its fulfilment.

Project coordinator should moderate the auto-evaluation tool application.

The structure of the Auto-Evaluation Guide is based in the model of a swot analysis. The questions here presented are guidelines for the reflection, but other questions and reflections can be appropriate in each moment of auto-evaluation.

The project auto-evaluation is mandatory in the middle of the project, giving inputs for the interim assessment of the project, and near the end of the project, giving inputs for the final assessment of the project. If relevant, the Auto-Evaluation Guide should be applicable every 6 months, during the project meetings, by the members of the Project Quality Assurance Committee.
